About the Artists

Allan Greenier was an "underground" cartoonist back in his younger wilder days. He has been a printmaker since 2010, very aware of the history of print, and in love with the look of ink, real ink, on gorgeous papers. He is chuffed to be having a show in his hometown village of Westville.

Miryam Welbourne is an Abstract Expressionist painter. Her process is rooted in techniques of Automaticity and inspired by artists of the DADA movement. She is thrilled to be collaborating with her friend and fellow artist, Mr. Greenier.
