- ◆ St. Patrick, the patron saint of Ireland, was born in Britain (not Ireland) near the end of the 4th century. At age 16 he was kidnapped by Irish raiders and sold as a slave to a Celtic priest in Northern Ireland.
- ◆ Legend has it that Patrick banished snakes from Ireland, but the fossil record shows no evidence of snakes ever living there.
- ◆ The Irish name for 'Leprechaun' is "lobaircin," meaning "small-bodied fellow." Belief in leprechauns likely stems from Celtic belief in fairies— tiny men and women who could use their magical powers to serve good or evil.
- ◆ The Shamrock was considered by Celts to be a sacred plant that symbolized the arrival of spring; St. Patrick used the 3-leafed plant to explain the Holy Trinity.
- ◆ The first St. Patrick's Day parade was held in America!
