

TAKE AND MAKE KITS

Glycerin Soap

The supplies included in this kit are:

- Glycerin solid
- Molds
- Powder color
- Flower essence

You'll need these items to start (some optional)

- Double boiler
- Spoon
- Any other oils or salt you might want to add.

Program

1. Put the glycerin solid in a water bath or microwave (heating up 20 seconds at a time)

2. As it is should NOT boil, melt a bit 'at a time

3. Add food color or mica powder
4. Add bath salts if you have or oils (just a little bit)

5. Put in the molds, in a short time they will become solid.
6. Add dry flowers on top or at the bottom of the mold.

7. And here is natural soap, beautiful and fragrant!
